

Galaxy LED Downlights

cryselco.co.uk/glx

These brand new LED-driven circular downlights (236mm in diameter) are available in 1100 lm and 2000 lm and either colour 830 or 840, with polished or white reflectors.

For an additional charge, either reflector type can be ordered with clear or opal covers in polycarbonate, and clear or sanded covers in glass.

The Galaxy complements the Callisto range (130mm diameter).

Emergency - Maintained emergency conversions are available. Please enquire.

Dimming - Dimming options are available. Please enquire.
